

HOW TO PUT TOGETHER A TEMPORARY GRAVE MARKER

Step 1

Using Lifelong Publisher Program create and print your marker onto the provided perforated sheet. Then tear off the perforation edges. **YOU MUST USE A LASER PRINTER**

Step2

Place the print between the two sheets of acrylic. Align all four edges.

Step 3

Use the punch assistant provided and punch a hole into the perforated sheet so the bolts will go into the holes easily.

Step4

Put the bolts into the pre-drilled holes.

Step5

Place the acrylic, print and bolts into the pre-drilled holes of the steel stake.

Step 6

Put the nuts onto the bolts and finger tighten.

Step 7

Use a flat screw driver and tighten the screws.
